

Abdelrahman Zaher

Software Developer

Cairo, Egypt | abdelrahmanzaher143@gmail.com | 01159556103 | LinkedIn | GitHub | Portfolio

Professional Summary

Highly motivated **Software Developer** and final-year **Computer Engineering** student with hands-on experience in mobile application development using both **Native Android (Kotlin)** and **Flutter**. Passionate about building scalable software solutions across different domains, with practical experience in database design, backend fundamentals, and web technologies. Skilled in designing relational databases using **MS SQL Server** and applying modern software engineering principles to develop efficient, maintainable, and user-focused applications. Continuously expanding my expertise across the software development lifecycle while seeking opportunities to create impactful technology solutions.

Education

Bachelor of Computer Engineering

2022 – 2027

Modern Academy for Engineering – Cairo, Egypt

- **GPA: 3.499 / 4.00**

Experience

Freelance Mobile App Developer

DEC 2025 – Present

Remote / Project-Based

- Developing and maintaining custom applications for various clients using modern architectural patterns.
- Managing end-to-end project lifecycles, from requirement gathering to deployment.

CIB Summer Intern

July 2026 – Aug 1, 2026

Commercial International Bank (CIB) – Cairo, Egypt

- Gained practical exposure to **Data Analysis** and **Big Data** concepts.
- Learned the fundamentals of **Cybersecurity** and secure digital systems.
- Explored modern **Digital Banking** technologies and banking operations.
- Developed foundational knowledge of **Finance** within the banking sector.

INNOVEGYPT'26 Workshop

July 21, 2026 – July 27, 2026

Information Technology Industry Development Agency (ITIDA) – Egypt

- Studied the fundamentals of **Entrepreneurship**, **Innovation**, and **Design Thinking**.
- Learned how to transform innovative ideas into real startup projects from ideation to execution.
- Explored different **Investment Models** and startup funding opportunities.
- Learned how to pitch business ideas and attract investors.
- Worked on projects integrating **Business** and **Technology** to solve real-world challenges.

Android Mobile Application Developer Intern

June 2025 – DEC 2025

Digital Egypt Pioneers Initiative (DEPI) – Cairo, Egypt

- Successfully completed intensive training in modern Android development and Clean Architecture.
- Collaborated in agile environments to deliver clean, maintainable, and scalable code.

Embedded Systems Intern

June 2024 – July 2024

Modern Academy for Engineering – Cairo, Egypt

- Gained hands-on experience with **AVR microcontroller architecture** and firmware development using **Embedded C**.
- Interfaced hardware modules including **DIO**, **LCD**, **Keypad**, **ADC**, and **Timers**.

- Learned **PCB Design** and schematic capture using **Autodesk Eagle** software.
- Completed a foundational course in **HTML and JavaScript** for web development.

Technical Skills

- **Languages:** Kotlin, Java, Dart, C, Python, SQL, JavaScript, HTML/CSS
- **Database:** MS SQL Server (Stored Procedures, Views), PostgreSQL, Firestore, ERD Design
- **Flutter+Native:** Jetpack Compose, XML, MVVM, Retrofit, Room, View Binding
- **Tools:** Git/GitHub, Android Studio, Jira, Docker

Projects

Movie Discovery App (DEPI Graduation Project)

Backend & API Integration Specialist

Kotlin, Jetpack Compose

GitHub Repository

- Integrated RESTful APIs and managed complex **Data Flow** for movie discovery.
- Developed the **Watchlist** feature using modern **Jetpack Compose** UI components.

M&A Shop | E-commerce App

Lead Developer & Architect

Kotlin, MVVM, Firebase

GitHub Repository

- Engineered a full-featured e-commerce app with **Firebase Auth** and **Firestore**.
- Designed the complete **Database Schema (ERD)** and implemented **MVVM** architecture.

Medical Center Management System

Full-Stack Web Developer

Java (JSP & Servlets), Maven, SQL Server

GitHub Repository

- Developed a full-stack web-based medical center management system using **Java (JSP & Servlets)** and **Microsoft SQL Server**.
- Implemented secure **User Authentication** (Login & Register) and role-based access to the system.
- Designed and implemented a relational database for managing **patients, doctors, schedules, and appointments**.
- Built a responsive user interface using **HTML, CSS, and JavaScript** and deployed the application on **GlassFish Server**.

News Application

Core Developer

Kotlin, Retrofit, Firestore

- Built a dynamic news feed using **Retrofit** for API fetching and **Firestore** for data storage.
- Implemented full authentication flow and category-based news filtering.

Clinic Management System (Database Design)

Database Engineer

MS SQL Server, T-SQL, Python

- Implemented a complex relational schema normalized to **3rd Normal Form (3NF)**.
- Automated business logic using **Stored Procedures** and **Views** for medical tracking.

Licenses & Certifications

Flutter Training

EraaSoft Academy

July 2026

Business English Track

Digital Egypt Pioneers Initiative (DEPI) | Ministry of Communications and Information Technology

Dec 2025

Learning Kotlin for Android

Mahara-Tech (ITI Platform) | Verification: leW3SGPYVG

Nov 2025

Machine Learning Course (60 Hours)

AMIT Learning | Grade: 97%

July 2025

Volunteering

Project Manager & Team Leader

Enactus Modern Academy

- **Won 1st Place** in the national competition for youth entrepreneurship after pitching the project to a panel of prominent business leaders and investors.
- Led the project development team and managed end-to-end operations for the winning initiative.
- Spearheaded a 14-day intensive workshop focused on entrepreneurship and project management.
